Addressing Burnout Syndrome From a Critical Care Specialty Organization Perspective

Transition-to-U.S. Practice Experiences of Internationally Educated Nurses: An Integrative Review

Task shifting to attain Sustainable Development Goals and Universal Health Coverage: What are the consequences to the nursing and midwifery profession?

Regulación de la enfermería en México: actores, procesos y resultados

Assessing providers’ approach to hypertension management at a large, private hospital in Kampaia, Uganda
Graduate level health professions education: how do previous work experiences influence perspectives about interprofessional collaboration?

Exploring patient experiences with and attitudes towards hypertension at a private hospital in Uganda: A qualitative study

Assessing geriatric capacity building needs in public hospitals in Mexico

A Scoping Review of the Evidence About the Nurses Improving Care for Healthsystem Elders (NICHE) Program

How language barriers influence provider workload for home health care professionals: A secondary analysis of interview data

Home health care services to persons with dementia and language preference

Dysbiosis of the Gut Microbiome: A Concept Analysis

Nursing’s public image in the Republic of Georgia: A qualitative, exploratory study

Content Validation of the Arabic Translation of the Practice Environment Scale of the Nursing Work Index-Revised

The Interdisciplinary Research Group on Nursing Issues: Advancing Health Services Research, Policy, Regulation, and Practice

Integrating Health Care Interpreters Into Simulation Education

Sustainable development & the year of the nurse & midwife – 2020

Health translators and interpreters in national healthcare systems
Section 1557 of the Affordable Care Act: Strengthening Language Access Rights for Patients With Limited English Proficiency

The Experience of Being Aware of Disease Status in Women with Recurrent Ovarian Cancer: A Phenomenological Study

Physician resilience: a grounded theory study of obstetrics and gynaecology residents

Detecting Disparities in Medication Management Among Limited English Proficient and English Proficient Home Health Patients

No One Left Behind: Public health nursing in a time of inclusion, equity, and sustainability

Provider Perspectives of Medication Complexity in Home Health Care: A Qualitative Secondary Data Analysis
Squires, A., Ridge, L., Miner, S., McDonald, M. V., Greenberg, S. A. & Cortes, T., Jan 1 2019, In : Medical Care Research and Review.

Strategies for overcoming language barriers in research

US nursing and midwifery research capacity building opportunities to achieve the United Nations sustainable development goals

Characteristics and Utilization of Internationally Educated Nurses in US Acute Care Hospital Units

Leaving no one behind: Public health nursing in a time of inclusion, equity, and sustainability

Policy update - Section 1557 of the Affordable Care Act: Strengthening language access rights for patients with limited English proficiency
Squires, A. & Youdelman, M., 2019, In : Journal of Nursing Regulation. 10, 1, p. 65-67

Transition-to-US-Practice Experiences of Internationally Educated Nurses in the United States in the 21st Century

Un estudio piloto de los ambientes laborales de Enfermeras mexicanas/A pilot study of the Mexican nurses work environments

Qualitative Research in Nursing and Health Professions Regulation
The meaning of "capacity building" for the nurse workforce in sub-Saharan Africa: An integrative review

Thriving in Scrubs: Understanding OBGYN Resident Resilience

Medication literacy and Somali older adults receiving home care

Un Estudio Piloto del Clima Laboral de las Enfermeras Mexicanas: A Pilot Study of Mexican Nurses' Work Environments

Interdisciplinary Collaborations in Global Health Research

The Prevalence, Reasons, and Risk Factors for Hospital Readmissions Among Home Health Care Patients: A Systematic Review

Geriatric Interdisciplinary Team Training 2.0: A collaborative team-based approach to delivering care

Content validation of the Arabic translation of the Practice Environment Scale of the Nursing Work Index

Strategies for overcoming language barriers in healthcare

Thriving in scrubs: a qualitative study of resident resilience

Factors Associated With HIV Testing in U.S. Latinos When Language Preference Is Spanish

Hospital readmissions from home care: Who and why?

The experience of being aware of disease status among women with recurrent ovarian cancer: A phenomenological study

Meta-Synthesis on Migraine Management

Healthcare professionals perceptions of neglect of older people in Mexico: A qualitative secondary analysis
Hospital Readmissions in Home Health Care Patients: Who and Why?

Language Concordant Home Care Visits Reduce 30 Day Readmissions in Limited English Proficiency Patients

Physician resilience: A grounded theory study of obstetrics and gynecology residents
Winkel, A. F., Honart, A. W. & Squires, A., 2018, In : Medical Education.

Validating the health literacy promotion practices assessment instrument

A case study on building capacity to improve clinical mentoring and maternal child health in rural Tanzania: The path to implementation

A post-master’s advanced certificate in gerontology for NPs

A scoping review of nursing workforce planning and forecasting research

Evidence-based approaches to breaking down language barriers

Health research capacity building in Georgia: a case-based needs assessment

An Exploratory Analysis of Patient-Provider Language-Concordant Home Health Care Visit Patterns

Part-time employment in Jordan as a nursing policy solution

A case example of a transitional education program for internationally educated nurses from Mexico
Squires, A., Feb 1 2017, In : Nursing economic$. 35, 1, p. 30-38

The Patient Care Paradox: An Interprofessional Qualitative Study of Agitated Patient Care in the Emergency Department

Trends in nurse workforce capacity building in Sub-Saharan Africa

The drivers of demand for language services in health care
Bayesian multilevel mimic modeling for studying measurement invariance in cross-group comparisons

Creating new knowledge: Nursing and midwifery led research to drive the global goals

Exploring the psychological health of emergency dispatch centre operatives: A systematic review and narrative synthesis

Mentoring to build midwifery and nursing capacity in the Africa region: An integrative review

Mentoring to build nursing and midwifery capacity in Sub-Saharan Africa: An integrative review

'Migraine Patients' Perspectives on Migraine Management: A Meta-synthesis'

The Drivers of Demand for Language Services in Healthcare

The Global Context of Health Care Delivery

Validating the Health Literacy Promotion Practices Assessment instrument. Health Literacy Research & Practice

How Factor Analysis Results May Change Due to Country Context
Brzyski, P., Kózka, M., Squires, A. & Brzostek, T., Nov 1 2016, In: Journal of Nursing Scholarship. 48, 6, p. 598-607

Impact of interprofessional education and practice curriculum on advanced learner attitudes

Examining the influence of country-level and health system factors on nursing and physician personnel production

Exploring longitudinal shifts in international nurse migration to the United States between 2003 and 2013 through a random effects panel data analysis

Investing in Nurses is a Prerequisite for Ensuring Universal Health Coverage
Notes from the Field: Residents’ Perceptions of Simulation-Based Skills Assessment in Obstetrics and Gynecology

Nursing's opportunity within the global refugee crisis

Language and communication issues impact healthcare providers around the world

Adapting a weight management tool for Latina women: a usability study of the Veteran Health Administration’s MOVE!23 tool

Evaluating nurse practitioners and physicians in interprofessional primary care of older adults.

Examining rates of provider-patient language concordant encounters in home care

Measurement of Interprofessional team collaboration to improve geriatric care

Military service and other socioecological factors influencing weight and health behavior change in overweight and obese Veterans: A qualitative study to inform intervention development within primary care at the United States Veterans Health Administration

Prior health literacy training, use of health literacy techniques, and perceived skills by residents at an urban academic medical center

Seeding a profession: The intersection of the state, international interests, and the early development of Brazilian nursing

The economics of health professional education and careers

Research lessons from implementing a national nursing workforce study

Technology-Assisted Weight Loss Interventions in Primary Care: A Systematic Review

A pilot study examining health literacy promotion practices among healthcare professionals
Barriers and facilitators to providing primary care-based weight management services in a patient centered medical home for veterans: A qualitative study

Can poverty reduction investments translate into more healthcare workers?

Development of a tailored, 5a's-based weight management intervention for veterans within primary care

Embedding interprofessional geriatric care into a primary care residency program.

Graduate level interprofessional education in the home care setting with frail older adults

Harmonized regional nurse qualifications

How military service and other factors influence weight and lifestyle behavior change in overweight and obese veterans

Implementing inter professional, graduate level, geriatric primary care education: Reflections on year 1 of a new program

Lessons learned: Interdisciplinary collaborations in global health research

Mentoring to promote nurse-midwife retention in Tanzania

Perceptions of caregiver neglect of older adults among healthcare professionals in Mexico

Preparing nurse practitioners and physicians in interprofessional primary care of older adults

Prevalence and risk factors for elder mistreatment in Latin America: An integrative review

Residents' perceptions of their health literacy skills and training needs across specialties
Year 1 evaluation results from an interprofessional primary care geriatrics training program  

Assessing nursing student intent for PHD study  

Quality of life in aging multiple sclerosis patients  
Bitton Ben-Zacharia, A. & Squires, A., Oct 1 2014, In : Journal of Clinical Outcomes Management. 21, 10

Co-infection with HIV increases risk for decompensation in patients with HCV  

Effect of substituting nurses for doctors in primary care  

Frailty as a predictive factor in geriatric trauma patient outcomes  

Methodological considerations when translating "burnout"
